Job type	Full-time
Location	Hybrid working (minimum 2/3 days a week in our Dunfermline/ Rosyth office, and remotely other days of the week)
Responsible to	Head of Operations
Job description date	5th of May 2025

## Finance Manager

Transforming the Future of Farming

Join the iLivestock Team as our Finance Manager!

We are a thriving, innovative technology company, supporting farmers with everyday farm management technology tools. If you have a strong background in financial management, a keen eye for detail, and a proactive approach to problem-solving, we want to hear from you!

### The Opportunity

This role offers a great opportunity to join a growing start up at an exciting stage of expansion. With the business expanding rapidly, entering new markets, and increasing in complexity, we're looking for someone who can take ownership of core financial responsibilities while working closely with leadership across the organisation.

You'll be responsible for delivering accurate and timely financial information, maintaining key ledgers, accounting records and reconciliations, overseeing budgets, contributing to production of company KPIs, and ensuring the efficiency of financial systems and processes. You will report to Head of Operations whilst working closely with our operations assistant who will support you with bookkeeping activities.

## About iLivestock

iLivestock offers software and hardware solutions for sheep and beef cattle farmers to manage their flocks and herds using a smartphone or tablet. Its technology, all developed and tested in the UK, simplifies farm compliance and animal record keeping, removes cost barriers to effective livestock management, and allows data-capture to fit seamlessly into farming routines.

The iLivestock team worked with farmers worldwide for over ten years to understand on-farm challenges. The company developed solutions tailored to the needs of livestock farmers, making it effortless, straightforward, and cost-effective to gather data on the farm.

With its affordable farm technology - which can be customised to meet the specific requirements of any sheep and cattle farmer and seamlessly scale up as their business grows - iLivestock empowers farmers to make better-informed decisions that boost their profitability, productivity, and environmental sustainability.

## The Opportunity

This role offers a great opportunity to join a growing start up at an exciting stage of expansion. With the business expanding rapidly, entering new markets, and increasing in complexity, we're looking for someone who can take ownership of core financial responsibilities while working closely with leadership across the organisation.

You'll be responsible for delivering accurate and timely financial information, maintaining key ledgers, accounting records and reconciliations, overseeing budgets, contributing to production of company KPIs, and ensuring the efficiency of financial systems and processes. You will report to Head of Operations whilst working closely with our operations assistant, who will support you with bookkeeping activities.

## Key responsibilities

- Ensure the integrity of the sales and purchase ledgers
- Be responsible for reconciliation activities and supporting schedules for management accounts
- Maintenance of the fixed asset register
- Lead the preparation and management of budgets and support the analysis of departmental budgets
- Lead credit control activities
- Payroll management
- Process payments through company bank accounts
- Monitor payment systems, e.g. Stripe, for receipts for accounting and analysis purposes
- Respond to financial data requests and handle enquiries promptly and accurately
- Prepare company VAT returns

- Liaise closely with external accountants on production of management accounts and year-end processes
- Preparation and maintenance of near-term Cash Flow forecast

## What we are looking for

You will ideally be a Qualified Accountant or have proven experience in a financial management role. You will have strong analytical skills, an eye for detail and the ability to communicate financial information to stakeholders. Furthermore, you will have a proven track record of working in a dynamic, fast-paced business and enjoy a varied role. This role will be based in our office in Rosyth, but the organisation operates with flexibility. The standard working hours are 9am - 5pm, and start and finish times can be flexible.

## Why iLivestock

At iLivestock, we're on a mission to make a real difference in agriculture. If you're eager to contribute and make a tangible impact, we invite you to explore opportunities with us.

## What we offer

- Competitive salary
- Regular company-wide social events and get-togethers
- Private health insurance
- Hybrid working (2/3 days per week in the office and remotely other days of the week)
- 40 days annual leave (including bank holidays)
- Company pension scheme

Not to mention

- Opportunities to take responsibility and grow professionally
- A positive and collaborative work culture
- A dynamic work environment with quick decision-making

## We like to hear from you

Are you passionate about farming and technology?

Join us at iLivestock and be a key player in developing groundbreaking technology that empowers farmers globally. We're looking for dedicated individuals to join our diverse and enthusiastic team, committed to creating the best solutions for sheep and cattle farmers.
